AGENDA ITEM #4. a.

SUBJECT: Minutes from the November 10, 2022 Board meeting

INFORMATION AND DISCUSSION: None.

RECOMMENDATION: That the Board of Trustees reviews and approves the November 10, 2022 regular meeting minutes.

ATTACHMENTS: Minutes from the November 10, 2022 board meeting.

SUBMITTED BY: Theresa Hutchison, Executive Assistant to the President

**WEATHERFORD COLLEGE
BOARD OF TRUSTEES
MINUTES OF REGULAR MEETING
November 10, 2022**

The Weatherford College Board of Trustees met in regular session at 2:00 p.m., Thursday, November 10, 2022, in the Community Room of the Emerging Technologies and Workforce Building. Board Chair Mac Smith called the meeting to order. Other trustees present were Vice-Chair Dan Carney, Dr. Trev Dixon, G.B. Bailey, Doug Dowd, Judy McAnally, Secretary Lela Morris and Dr. Robert Marlett. None were absent. Brent Baker gave the invocation and the Pledge of Allegiance was recited.

Call to Order,
Invocation and
Pledge of Allegiance

Mr. Butler of Weatherford, Texas, spoke regarding public concerns.

Public Comment

President Tod Allen Farmer submitted the following recognitions and employee notices:

President's Report

a. Recognitions –

- WC students Nuri Han and Xavier Kim for their performance prior to the board meeting. The two of them as well as other WC students perform at the Arlington Memorial Hospital every month on the first Tuesday from 12 – 1.
- The conference champion WC Volleyball team, who finished second in the NJCAA Region V North tournament. Coach Kailee May was recently selected as the Coach of the Year.
- WC defending national championship women's rodeo team, who continues to excel; Sophie Dunn recently won the women's all-around title at the Clarendon College Rodeo.
- WC's Phi Theta Kappa Honor Society chapter on their recent Trash Arts Contest as part of the 2022 Honors in Action grant from PTK and the Mellon Foundation.

b. Employment Notices –

DMAC (Local) requires the college president to provide the names of contract employees that have resigned or retired since the last board meeting. In accordance with this policy, President Farmer reported the following:

- Linda Privette, Math Instructor retirement effective 12/31/2022
- Carla Bowen, Testing Assistant retirement effective 1/27/2023
- Lou Ann Baker, Library Clerk retirement effective 11/11/2022

- Jennifer Lopez, Director of Accounting resignation effective 11/4/2022

Consent Agenda

A recommendation was made that the Board of Trustees approves the November 10, 2022 Board of Trustees minutes. *Minutes submitted by Theresa Hutchison, Executive Assistant to the President.*

Minutes

The cash balance as of October 31, 2022 is \$76,690,847.90. This is an increase of \$18,344,632.21 from last year at October 31, 2021. The operating statement at October 31, 2022 indicates that total revenues collected are \$16,388,633 or 24.15% of budget. Total expenditures are \$11,902,134 or 17.54% of budget. It was recommended that the Board approves the financial reports ending October 31, 2022 as presented. *Attached are the Cash Balance Reports and Operating Statements at October 31, 2022 submitted by Dr. Andra R. Cantrell, Executive Vice President for Financial & Administrative Services.*

Financial Reports

Mr. Bailey made the motion to approve the Consent Agenda as presented. Dr. Marlett seconded and the motion carried unanimously.

Consent Agenda
804-1
Approved

The following reports were submitted to the Board:

Reports

- a. Academic and Student Services Update, submitted by Michael Endy, Vice President of Instruction and Student Services
- b. Equities in Athletics Update, submitted by Adam Finley, Executive Dean of Enrollment Management and Registrar
- c. Athletics Update presented by Jeff Lightfoot, Assistant Athletic Director

President Farmer discussed the following tentative future agenda items:

Future Agenda Items

- a. 2021-22 Financial Audit
- b. Approval of 2023 -24 Academic Calendar

Vice President Brent Baker made the following announcements:

AGENDA ITEM #4. c.

SUBJECT: Quarterly Investment Report

INFORMATION AND DISCUSSION: As required by Government Code 2256.005, the investment officer shall prepare and submit to the Board a written report of investment transactions for all funds covered by the Public Funds Investment Act. This report is submitted to the Board on a quarterly basis, within a reasonable time after the end of the period. Attached you will find a Report of Investments for the period ending November 30, 2022.

RECOMMENDATION: That the Board of Trustees approve the Report of Investments at November 30, 2022.

ATTACHMENTS: Report of Investments at November 30, 2022.

AGENDA ITEM #4. d.

SUBJECT: Annual Review of CAK Local Policy Appropriations and Revenue Sources—Investments

INFORMATION AND DISCUSSION: Under Education Code Section 51.0032, investments made by the College shall comply with the Public Funds Investment Act as per Texas Government Code Chapter 2256.005. The Public Funds Investment Act is reviewed by the state legislature on a biannual basis. Due to the fact that no action has been taken since 2019, no changes are necessary. However, the code requires that the Board of Trustees annually review the local investment policy and strategy. But at this time, there are no changes required.

RECOMMENDATION: That the Board of Trustees has reviewed and approves the investment policy and investment strategies set out in CAK Local and recommends no changes at this time.

ATTACHMENTS: CAK Local Policy Appropriations and Revenue Sources—Investments.

SUBMITTED BY: Dr. Andra R. Cantrell, Executive Vice President for Financial & Administrative Services

APPROPRIATIONS AND REVENUE SOURCES
INVESTMENTS

CAK
(LOCAL)

Objectives

The investment policy of the College District shall be to:

1. Ensure the safety of the invested funds of the College District;
2. Maintain sufficient liquidity to provide adequate and timely working funds;
3. Attain the highest possible rate of return while providing necessary protection of principal consistent with College District operating requirements as determined by the Board;
4. Match the maturity of investment instruments to the daily cash flow requirements;
5. Diversify investments as to maturity, instruments, and financial institutions where permitted under state law;
6. Actively pursue portfolio management techniques; and
7. Avoid investment for speculation.

**Authorized
Investments**

Agreements

The College District's chief financial officer shall serve as the investment officer of the College District. The investment officer shall be required to obtain at least five hours of investment training within the first 12 months of assuming duties and shall be required to earn an additional five hours of investment training in every subsequent biennium. To ensure the accomplishment of the policy and the objectives listed, the investment officer of the College District shall be authorized to invest the various funds of the College District in legally authorized and adequately secured certificates of deposit and/or U.S. Treasury Bills with a maximum maturity of 12 months. The Board shall permit the investment of bond proceeds and pledged revenue to the extent allowed by law. No other investments shall be made without approval of a majority of the Board. All investment transactions except investment pool funds and mutual funds shall be executed on a delivery versus payment basis. With respect to repurchase agreements:

1. The market value of the collateral shall equal at least 102 percent of the cash value of the repurchase agreement.
2. All securities purchased under a repurchase agreement shall be held by the College District's custodial (safekeeping) agent.
3. The seller of repurchase agreement securities shall be entitled to substitute securities upon authorization by the College District.

APPROPRIATIONS AND REVENUE SOURCES
INVESTMENTS

CAK
(LOCAL)

4. No repurchase agreement shall be entered into unless a Master Repurchase Agreement has been executed between the College District and its trading partners.

Certificates of
Deposit

Bids for certificates of deposit may be solicited orally, in writing, electronically, or in any combination of those methods.

**Safety and
Investment
Management**

The investment officer shall exhibit prudence and discretion in the selection and management of securities. Skill and judgment shall be exercised in order that no individual or group of transactions undertaken would jeopardize the total capital sum of the overall portfolio. The College District shall not allow speculation (such as anticipating an appreciation of capital through changes in market interest rates) in the selection of any investments. The investment officer shall observe financial market indicators, study financial trends, and utilize available educational tools in order to maintain appropriate managerial expertise.

**Liquidity and
Diversity**

To meet the investment objectives of the College District, the maturity of investments shall be targeted to coincide with the cash flow needs of the College District.

Assets of the College District shall be invested in instruments whose maturities do not exceed one year at the time of purchase. Assets held in debt retirement funds may be invested in maturities exceeding one year. The investment portfolio shall be diversified to reduce the risk of loss of investment income from overconcentration of assets in a specific issue, a specific issue size, or a specific class of securities.

Nevertheless, the College District recognizes that in a diversified portfolio, occasional measured losses are inevitable and must be considered within the context of the overall portfolio's investment return. Also, it is intended that investments in all funds shall be managed in such a way that any market price losses resulting from interest rate volatility shall be offset by income received from the balance of the portfolio during a 12-month period.

Internal Controls

A system of internal controls shall be documented in writing. Also, they shall be designed to prevent losses of public funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the College District. Controls deemed most important shall include:

1. Control of collusion;
2. Separation of duties;

APPROPRIATIONS AND REVENUE SOURCES
INVESTMENTS

CAK
(LOCAL)

3. Separation of transaction authority from accounting and recordkeeping;
4. Custodial safekeeping;
5. Avoidance of bearer-form securities;
6. Clear delegation of authority;
7. Specific limitations regarding securities losses;
8. Written confirmation of telephone transactions;
9. Limiting the number of authorized investment officials; and
10. Documentation of transactions and strategies.

These controls shall be reviewed by the College District's independent auditing firm.

Safekeeping and Custody

To protect against potential fraud and embezzlement, the cash and investments of the College District shall be secured through third-party custody and safekeeping procedures as designated by the College District. Investment officials shall be bonded.

Sellers of Investments

Prior to handling investments on behalf of the College District, a broker/dealer or a qualified representative of a business organization must submit required written documents in accordance with law.

Representatives of brokers/dealers shall be registered with the Texas State Securities Board and must have membership in the Securities Investor Protection Corporation (SIPC), and be in good standing with the Financial Industry Regulatory Authority (FINRA).

Interest Rate Risk

To reduce exposure to changes in interest rates that could adversely affect the value of investments, the College District shall use final and weighted-average-maturity limits and diversification.

The College District shall monitor interest rate risk using weighted average maturity and specific identification.

Portfolio Report

A monthly management portfolio report shall be prepared by the investment officer relating to investments of the College District and appropriate collateral pledged for those investment instruments requiring security. A comprehensive report on the investment program and investment activity shall be presented annually to the Board. A compliance audit of management controls on investments and adherence to approved investment policies shall be performed in conjunction with the annual financial audit, along with a state agency compliance audit performed at least every two years.

APPROPRIATIONS AND REVENUE SOURCES
INVESTMENTS

CAK
(LOCAL)

**Monitoring Market
Prices**

Monitoring shall be done monthly and more often as economic conditions warrant by using appropriate reports, indices, or benchmarks for the type of investment. The investment officer shall keep the Board informed of significant declines in the market value of the College District's investment portfolio. Information sources may include financial/investment publications and electronic media, available software for tracking investments, depository banks, commercial or investment banks, financial advisers, and representatives/advisers of investment pools or money market funds.

**Monitoring Rating
Changes**

In accordance with Government Code 2256.005(b), the investment officer shall develop a procedure to monitor changes in investment ratings and to liquidate investments that do not maintain satisfactory ratings.

Investment Strategy

The College District maintains portfolios that utilize specific investment strategy considerations designed to address the unique characteristics of the following fund groups represented in the portfolios:

1. Operating Funds. Investment strategies for operating funds and commingled pools containing operating funds have as their primary objective the assurance that anticipated cash flow are matched with adequate investment liquidity. In order to accomplish this, the College District shall maintain adequate balances in short-term investments with necessary liquidity to ensure that sufficient funds are available for the continued operations of the College District. Funds shall not be invested in securities with stated maturities that exceed the reasonable expected expenditure time period.
2. Debt Service Funds. The College District shall maintain as its primary objective, the safety of principal with regard to all monies collected or allocated for debt service. Secondly, the College District shall seek to maximize the return on such funds while ensuring sufficient funds for timely payments of its debt obligations. In order to accomplish this, the College District shall invest such funds in amounts and maturity dates that most likely will meet the debt service requirements of the College District.
3. Capital Improvement Fund. The College District shall maintain as its primary objective, the safety of principal with regard to all monies collected. The College District shall seek to maximize the return of such funds while ensuring sufficient funds for timely payments of its obligations.

APPROPRIATIONS AND REVENUE SOURCES
INVESTMENTS

CAK
(LOCAL)

4. Special Projects or Special Purpose Funds. Portfolios for these funds shall have as their primary objective the assurance that anticipated cash flows are matched with adequate investment liquidity. The stated final maturity dates of securities held should not exceed the estimated project completion date.

AGENDA ITEM # 4.f.

SUBJECT: Resolution to Authorize an Interlocal Cooperative Purchasing Agreement with ESC Region 19 Allied States Cooperative

INFORMATION AND DISCUSSION: Pursuant to the authority granted under State of Texas Government Code, Chapter 791 Interlocal Cooperation Contracts, as amended, Weatherford College desires to participate in the Cooperative Purchasing Program with ESC19 Allied States Cooperative to provide a variety of goods, products and services for Weatherford College.

The purpose of the ESC Region 19 Allied States Cooperative Purchasing Program is to leverage ASC members' combined buying power to command better pricing and favorable contract terms from suppliers. ESC Region 19 develops and administers a cooperative purchasing program that provides members with a legal and compliant exemption to the solicitation process. In addition, ESC-R19 provides agencies with subsequent independent contacts and/or offerings of each of the programs and services that ESC-R19 provides through ASC providing members with a legal and compliant exemption to the solicitation process.

Membership in the ESC-R19 ASC purchasing cooperative entitles the entity to utilize competitively bid goods and services where the vendor or vendors can operate logistically and has the capabilities to perform in compliance with contract provisions. Member benefits include increasing the purchasing power of government entities and reducing the cost of purchased goods and services, expediting the procurement process, no cost incurred by its membership, no obligation to purchase, no administrative expense of preparing and soliciting proposals or the cost of publishing legal notices, complies with state purchasing codes, and managed by public purchasing professionals.

RECOMMENDATION: That the Board of Trustees approves the Resolution authorizing the Interlocal Cooperative Purchasing Agreement with ESC Region 19 Allied States Cooperative as presented.

ATTACHMENTS: Resolution and Interlocal Cooperative Purchasing Agreement

SUBMITTED BY: Dr. Andra R. Cantrell, Executive Vice President of Financial & Administrative Services

RESOLUTION

BOARD RESOLUTION Of Weatherford College

WHEREAS, the Board of Trustees of Weatherford College of the Parker County Junior College District, Weatherford, Texas, approving the terms and conditions of an Interlocal Cooperative Purchasing Agreement to participate in the ESC 19 Allied States Cooperative Purchasing Program to provide a variety of goods, products and services; designating Dr. Andra R. Cantrell, Executive Vice-President of Financial and Administrative Affairs, as official representative of Weatherford College relating to this contract, and

WHEREAS, the Board of Trustees of Weatherford College has been presented a proposed Interlocal Cooperative Purchasing Agreement by and between ESC 19 ASC and Weatherford College and found to be acceptable and in the best interests of Weatherford College and its citizens, are hereby in all things approved, and

WHEREAS, no fees for the Cooperative shall be paid to ESC 19 ASC for participation in this Cooperative, and

WHEREAS, Weatherford College of Weatherford, Texas, pursuant to the authority granted under State of Texas Government Code, Chapter 791 Interlocal Cooperation Contracts, as amended, desires to participate in the described ESC 19 Allied States Cooperative Purchasing Program and in the opinion that participation in this contract will be highly beneficial to the taxpayers through the anticipated savings to be realized by Weatherford College.

NOW THEREFORE, BE IT RESOLVED by the Board of Trustees of Weatherford College of the Parker County Junior College District, Weatherford, Texas:

Section I. The terms and conditions of the contract have been reviewed by the Board of Trustees of Weatherford College and found to be acceptable and in the best interests of Weatherford College and its citizens are hereby in all things approved.

Section II. Dr. Andra R. Cantrell, Executive Vice-President of Financial and Administrative Affairs of Weatherford College, under the direction of the Board of Trustees of Weatherford College, is hereby designated to act for Weatherford College in all matters relating to the ESC 19 ASC Cooperative Purchasing Program. This resolution shall become effective from and after its passage and will remain current on file until either party severs the agreement.

DULY PASSED AND APPROVED THIS THE 8^h DAY OF DECEMBER 2022. ATTEST:

AUTHORIZATION FOR USE OF ESC REGION 19 ALLIED STATES COOPERATIVE

WHEREAS, the _____ (Agency Name) of _____ (City), Texas, pursuant to the authority granted under Section 271.101 to 271.102 of the Local Government Code, desires to participate in the ESC-Region 19 Allied States Cooperative, in the best interest of the taxpayers through cooperative savings to be realized.

NOW, THEREFORE, BE IT RESOLVED BY _____ (Agency Name)
OF THE _____ (City), TEXAS AS FOLLOWS:

The terms and conditions of the agreement have been reviewed by the Governing Body of the _____ (Agency Name) and found to be acceptable and in the best interests of the _____ (Agency Name) and its citizens are hereby in all things approved.

The _____ (Agency Name) is authorized to enroll and participate in the ESC Region 19 Allied States Cooperative and purchases through this program shall be deemed to meet competitive purchasing requirements.

DULY PASSED AND APPROVED THIS THE _____ DAY OF _____ 20_____.

ATTEST: _____ (Authorized Signature)

(Title)

(Title)

Upon agreement and authorized approval by the governing body of each of the parties, this agreement will be in effect between the referenced parties, in which Education Service Center- Region 19 Allied States Cooperative will cooperatively bid out goods and services. This agreement shall automatically renew on the anniversary date. Either party may terminate this agreement with or without cause given a 30-day notice.

Authority for cooperative contracting is granted under Government Code Title 7, Chapter 791 Interlocal Cooperation Contracts, Subchapter B General Interlocal Contracting Authority and Subchapter C Specific Interlocal Contracting Authority and Local Government Code, Chapter 271, Subchapter F, Section 271.101. and Section 271.102.

Region 19 Education Service Center through Allied States Cooperative will:

- Provide organizational and administrative support to facilitate member requirements
- Provide staff necessary for efficient operation of the purchasing cooperatives
- Provide administrative support for contract compliance with awarded bidders
- Comply with competitive bidding requirements
- Disseminate information in an expedient manner regarding awards and information related to specified contracts
- Maintain the ESC-Region 19 Allied States Cooperative website
- Provide specific contract requirement bid processing services during the contract period on a case by case basis.

Purchasing Co-op Members will:

- Designate a contact person for communications
- To the extent permitted by law, indemnify and save harmless Education Service Center - Region 19 Allied States Cooperative, the Region 19 Board of Directors, and Region 19 employees or representatives from all suits and claims resulting or arising from any breach of this Agreement or related agreements by the Co-op member and any negligent or intentional acts of Co-op member, its employees or agents. This Interlocal Agreement does not constitute a waiver of the sovereign immunity of any of the parties hereto.
- Submit copies of all purchase orders utilizing ESC-Region 19 ASC contracts to ESC Region 19 ASC.
- Pay awarded vendors in compliance with the payment terms set forth in the contracts.
- Notify ESC-Region 19 Allied States Cooperative in writing of any non-compliance issues with awarded vendors.
- Mutually agree with ESC-R19 (ASC) on specific contracts to be utilized due to market coverage by vendors. Each party paying for the performance of governmental function or services must make those payments from current revenues available to the paying party.

SUBJECT: Academic and Student Services Update

INFORMATION AND DISCUSSION:

Program Updates:

The BSN and BAAS in Organizational Leadership programs will submit their biennial program performance reports to the Texas Higher Education Coordinating Board at the end of the month.

Weatherford College is developing articulation agreements with Texas Woman's University for students transitioning from the BAT in Medical and Health Services Management and the BAAS in Organizational Leadership to appropriate masters-level programs.

The Academic Services and Student Services divisions are coordinating with Technology Services to complete the migration of the Instructional Information Website (required by Texas House Bill 2504) from the MOODLE LMS to the Clean Catalog system. The new site will include the College catalog, master syllabi for all credit-based courses, an instructor directory with individual instructor information pages, and links to institutional resources such as the annual budget.

Numbers with Heart:

From the BAAS in Organizational Leadership Program – *all fifteen students in the first-year cohort are progressing toward graduation in May of 2023.* The program's second cohort has retained all twenty-three students as we near the end of the fall 2022 term.

The BSN program graduated twelve students in August, with another five completing this month. The continuing population includes nineteen students with thirteen qualified applicants. An exciting new feature of the BSN is the early enrollment program for our ADN students. Twenty-five current ADN students are also completing BSN courses in the fall of 2022, with eighteen more joining them in concurrent enrollment in the spring. *Associate Degree Nursing students who enroll concurrently can earn their BSN in as little as two semesters after they finish their ADN.*

During the month of November Student Services had 740 advising session with students. Director of Student Engagment John Turntine met with 389 of those students. By the end of the month just over 2,500 students were registered for courses, a five percent increase from the same time last year.

SUBJECT: Economic Impact Study

INFORMATION AND DISCUSSION:

EXECUTIVE SUMMARY
UNT Economics Research Group

Institutions of higher education have a significant role in ensuring the future economic growth of North Texas. Higher education conducts the core research and workforce training that are vital for commercial achievement. Colleges and universities provide the education that shapes the intellect and character of future economic leaders. Colleges and universities also provide the practical education and training necessary to sharpen the skill set of the North Texas labor force.

Higher education has a very tangible impact on the North Texas economy. Specifically, local colleges and universities are significant economic engines in themselves. They are large employers of local labor and their spending supports a wide variety of local businesses. This is especially true of rural institutions. Rural colleges are often not only the primary economic driver of the community, but they also provide the region's social and cultural inspiration.

The purpose of this study is to identify and measure the significant annual economic impact that Weatherford College has on the North Texas Economy. The College's audited financial statements are the foundation of this report. Therefore, this study captures all financial activity conducted by Weatherford College and reported through its audited and compliant systems. This includes College expenditure items, such as purchases of tangible goods and related services, payroll for all staff, capital improvements, physical plant, and inventory purchases. Examples of College revenues include grants and state appropriations, tuition income, private gifts, and sales by College auxiliary enterprises.

This study also includes estimates of the economic impact of Weatherford College's student, employee, and visitor spending. It provides an estimate of the economic impact of the College's athletic programs. No attempt was made to estimate the value of non-tangible expenditure streams. This study does not attempt to measure the added value of student

learning capacity; the economic impact of faculty earnings from private consulting, patent and book royalties; or the economic impact of faculty and staff expertise used by businesses and public sector organizations. While these impacts may be considerable, the data is often imprecise and not verifiable. For this reason, they are not included in this report.

Every attempt was made to precisely locate the true economic impact. To this end, the study utilizes a geographic information system (GIS) to spatially locate the institution's expenditure transactions. Accountspayable transactions and employee compensation have been spatially plotted. Once these geographic spending patterns were determined, the data were coupled with an economic Input/Output model to determine the appropriate spending multipliers for Weatherford College's service area.

University of North Texas

October 2022

RESEARCH STATEMENT

The economic impacts contained in this report are based on the 2021 audited financial statements of Weatherford College. The financial information is taken as given and no attempt was made to verify or audit the Weatherford College financial systems and procedures. The data regarding student enrollment and athletic activity was provided by the College. This report does not include the economic value of intangible items such as the economic value student earning potential or any valuation of technology transfers. Every attempt was made to accurately measure and spatially place the relevant, “real” economic impacts.

Michael C. Carroll, Ph.D., Director
Economics Research Group
University of North Texas

EXECUTIVE SUMMARY

Institutions of higher education have a significant role in ensuring the future economic growth of North Texas. Higher education conducts the core research and workforce training that are vital for commercial achievement. Colleges and universities provide the education that shapes the intellect and character of future economic leaders. Colleges and universities also provide the practical education and training necessary to sharpen the skill set of the North Texas labor force.

Higher education has a very tangible impact on the North Texas economy. Specifically, local colleges and universities are significant economic engines in themselves. They are large employers of local labor and their spending supports a wide variety of local businesses. This is especially true of rural institutions. Rural colleges are often not only the primary economic driver of the community, but they also provide the region's social and cultural inspiration.

The purpose of this study is to identify and measure the significant annual economic impact that Weatherford College has on the North Texas Economy. The College's audited financial statements are the foundation of this report. Therefore, this study captures all financial activity conducted by Weatherford College and reported through its audited and compliant systems. This includes College expenditure items, such as purchases of tangible goods and related services, payroll for all staff, capital improvements, physical plant, and inventory purchases. Examples of College revenues include grants and state appropriations, tuition income, private gifts, and sales by College auxiliary enterprises.

This study also includes estimates of the economic impact of Weatherford College's student, employee, and visitor spending. It provides an estimate of the economic impact of the Colleges athletic programs. No attempt was made to estimate the value of non-tangible expenditure streams. This study does not attempt to measure the added value of student earning capacity; the economic impact of faculty earnings from private consulting, patent and book royalties; or the economic impact of faculty and staff expertise used by businesses and public sector organizations. While these impacts may be considerable, the data is often imprecise and not verifiable. For this reason, they are not included in this report.

Every attempt was made to precisely locate the true economic impact. To this end, the study utilizes a geographic information system (GIS) to spatially locate the institution's expenditure transactions. Accounts payable transactions and employee compensation have been spatially plotted. Once these geographic spending patterns were determined, the data were coupled with an economic Input/Output model to determine the appropriate spending multipliers for Weatherford College's service area.

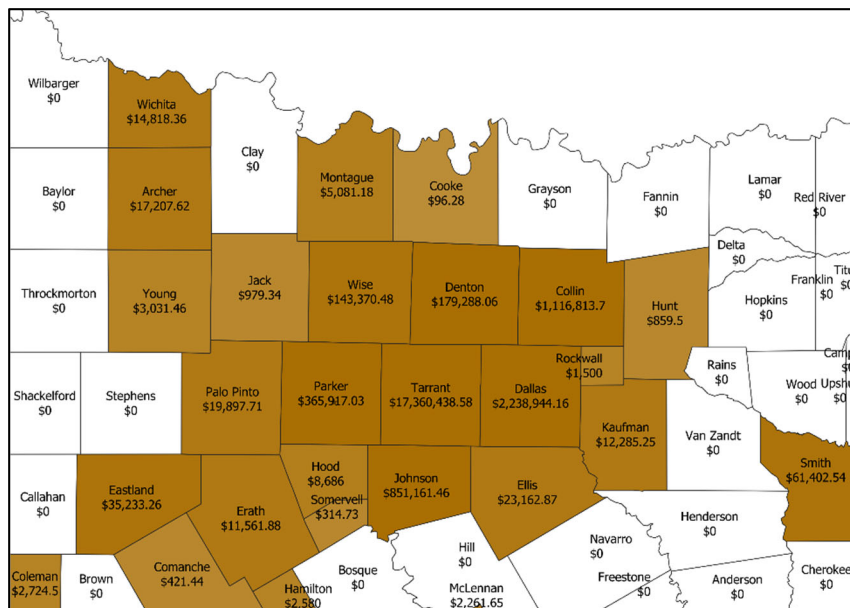

Selected 2021 Highlights:**Primary Economic Activity**

- Weatherford College generated \$139.3 million dollars for the North Texas economy in 2021
- Weatherford College supports 1,118 jobs annually in the North Texas economy
- Weatherford College generates \$5.3 million dollars annually in state and local tax revenues
- Weatherford College generates \$12.4 million dollars annually in Federal tax revenues
- Weatherford College generates \$4.6 dollars in local economic activity for each dollar it receives in state and local appropriations.
- The majority of Weatherford College's spending is local (see Map 1)

Table 1 Economic Impact of Weatherford College Primary Operations Summary				
	Direct	Indirect	Induced	Total
Total Economic Impact	\$69,176,116	\$27,739,415	\$42,429,258	\$139,344,789
Employment	712	144	261	1,118
Labor Income	\$38,940,084	\$8,161,940	\$14,599,656	\$61,701,680
Value Added (GDP)	\$40,889,829	\$17,280,811	\$25,656,387	\$83,827,028

Note: Primary economic activity includes Weatherford College's spending on campus operations, capital investments, employee compensation, spending of students residing on campus, and visitor spending related to Weatherford College academic events and on-campus student visitors. The state and local tax revenue does not include property tax revenue related to Weatherford College employees. The source of this impact are the audited financial statements and the college enrollment/housing records. The service area for primary activity is the DFW Metro Area.

Map 1
Local Accounts Payable Spending

Ancillary Economic Activity

- Ancillary activity is the economic contribution provided to Parker County from Weatherford College athletic activities and related visitor spending.
- The total economic impact of ancillary activity on Parker County is \$213,290

Impact Note:

- **Direct** impact measures the actual expenditure conducted by Weatherford College. Direct college spending includes capital spending, operation expenses and student/visitor spending. The amount of direct college spending is taken from the audited financial statements and Weatherford College enrollment records.
- **Indirect** impact measures the volume of industry-to-industry purchases that result from Weatherford College's local spending.
- **Induced** impact reflects the change in household spending that result from direct and indirect activity.
- **Total** impact is the summation of direct, indirect, and induced.

INTRODUCTION

Weatherford College was established in 1869 and is the oldest continuing public community college west of the Mississippi River. The college celebrated its 150th anniversary in 2019. Weatherford College's state defined education district consists of five counties – Parker, Palo Pinto, Hood, Jack and Wise. Weatherford College provides programs that parallel the first two years of baccalaureate institutions and provides opportunities for local students that would not have been possible a significant commute. Weatherford College partners with other institutions such as Midwestern State and Tarleton State University. These partnerships provide Weatherford College students with education and other career opportunities that may not have been provided by other institutions. The College is accredited by the Southern Association of Colleges and Schools and other program-specific accrediting authorities.

The expenditures of Weatherford College affect the economy in three ways. The direct impact includes the purchases of resources (labor, goods, and services) that occur from normal College operations. Such purchases include local utilities, supplies, and general salary and service expenses. The indirect impact measures the volume of industry-to-industry purchases. For example, if Weatherford College purchases goods or services from other DFW firms, the value of these items must be included. Finally, the induced impact reflects the change in household demand as those employees of Weatherford College and its suppliers earn dollars for consumer spending. This analysis disaggregates the ultimate economic impact into these three categories in order to investigate the process by which dollars and jobs are generated. The direct impacts are obtained from College financial records, whereas the indirect and induced impacts are estimated with an input-output model.

This study's goal is to measure the direct, indirect and induced economic impacts as accurately as possible. All the revenue and expenditure transactions were reconciled and any non-cash (e.g. depreciation, accruals, etc.) transactions were eliminated. Therefore, any "real" financial activity conducted by the College and reported through its audited system was captured. This includes College expenditure items such as purchases of tangible goods and related services, payroll for all staff, and purchases for physical plant and inventory. Further, this study adds estimates of employee, student, and visitor spending.

METHODOLOGY

This section explores the general methodology used to calculate the economic impacts. A brief discussion of the models employed is followed by a description of the pertinent data used in the economic calculations. The primary data are directly from Weatherford College's audited financial statements and represents the most accurate data available and official enrollment records. The secondary data, items such as industry employment levels and local demographic characteristics, are taken from a number of state and national data sources.

General Economic Forecasting Model Specification

This study employed an Input\Output model to make the primary economic forecasts. Input\Output methodology allows the examination of forward and backward linkages that are present in any regional economy. The model measures the total annual economic activity that results from inter- and intra-industry transactions. The model breaks the economy into approximately 540 separate sectors with each sector representing an individual industry. It then uses a sectoring scheme developed by the IMPLAN Group and is closely related to the Bureau of Economic Analysis (BEA) REIS model. The model is 536 X 536 (row x col.) matrix that shows all the economic activity between the individual sectors. The entries in the matrix are based on the dollar amount that each industry sells to (and purchases from) other industries in North Texas. It measures the amount of final consumption by the residents of the region as well as how much each industry exports from the area. The model uses data collected at the county level, which are obtained from the IMPLAN Group and the BEA. County data are in turn aggregated or “rolled-up” to form service areas such as local areas, states or larger geographic regions such as the Western or Midwest.

Input\Output models estimate economic impacts by taking advantage of the relatively stable patterns in the flow of goods and services within the economy. Predictions can be made of an industry’s total economic impact by examining the purchasing patterns of the individual sectors. The BEA collects extensive data on these regional trade flows and reports their findings annually.

Spatial patterns are then defined through a Geographical Information System (GIS) interface. This GIS interface affords the ability to spatially locate and describe the economic phenomena under consideration. It further allows the forecasting model to accurately describe (zip code centroid location) the physical location of any economic activity reported. Economic activity, once accurately defined, can be tracked through to its ultimate destination. Any degradation of the economic impact is assumed to be a function of distance decay or information/transportation infrastructure inadequacies.

Primary Data

All the primary data come directly from Weatherford College’s audited financial statements (Snow Garrett Williams CPA, 2021) and provide a solid foundation for the analysis. These data include all the College’s accounts payable transactions, salaries and fringe benefits, number of employees, construction and capital improvements spending, and state appropriations.

Secondary Data Specifications

Once the primary (direct) impact is identified, it is necessary to estimate the ultimate impact on the economy. This study’s forecasting model utilizes variables from a variety of national data sets. To reduce potential confusion, a specific definition of the major variables may be of use.

Industry Output

Industry output represents the value of the industry's total production. Industry output can be thought of as the value of industry sales plus or minus inventory changes. It should be stated that industry output is not a measure of an industry's income and, therefore, cannot be directly compared to the Gross State Product (GSP) (Total-value Added is a closer approximation) numbers reported by the BEA. The value of industry output is typically higher than GSP. It is a more comprehensive measure and, therefore, is a better measure of true economic impacts. The IMPLAN model estimates the industry output data, which are derived from the Bureau of Census Economic Census, the Annual Survey of Manufacturers, and the Bureau of Labor Statistics growth model.

Employment

Employment is the total number of full-time wage and salary employees, plus the number of self-employed workers in a particular industry. Part-time workers' hours are aggregated into full-time equivalents (2,080 hours), and reported with the full-time workers.

No single source of employment data is adequate for accurately estimating employment impacts. Due to nondisclosure rules, the employment figure reported by government agencies often underestimates true employment in a given county. In accordance with U.S. Code Title 13, Section 9, no datum is published that would disclose the operations of an individual employer or put an individual employer at an unfair disadvantage. In this study, as we narrow our focus to the county level, the number of firms representing an industry inevitably decreases. It is not uncommon for a single business establishment to be the sole operator in that industry in a particular county. If this is the case, the employment numbers are not disclosed and the employment in that region is understated. Fortunately, it is possible to reconstruct a region's employment by combining data from a variety of sources. Non-disclosure rules require that the individual reporting agency not reveal confidential information. However, other government agencies may report the missing data in another form. For example, the U.S. Department of Labor collects labor data as part of the Unemployment Insurance ES-202 program. These data are for "covered employees" of the Unemployment Insurance Program. Workers not "covered," such as self-employed workers, would not be included in the data. However, "not covered" workers would be included in the employment figures captured by the Department of Census County Business Patterns. By carefully combining the employment figures reported in the ES-202 data set, the County Business Patterns, the REIS data and the Internal Revenue Service Quarterly Payroll File (FICA), a fairly comprehensive employment figure can be reconstructed. The raw data are then "sectored" into the appropriate SICs and, in turn, combined into the necessary industry vectors and IMPLAN matrices.

Labor Income

Labor income includes all salaries and wages paid to the industry's employees. The figure includes the proprietors' income of self-employed persons in the industry. The figures reported are gross amounts and taken

from the IMPLAN data set.

Consumption

Employee consumption measures consumption spending of employees directly employed by the relevant industry. Employee spending is estimated using the BEA Benchmark I/O Study and the BLS Consumer Expenditure Survey. This provides estimates of employee spending based on regional preferences and household income levels. In this case, it measures the typical “basket” of goods purchased by a North Texas family.

Understanding Multipliers

As mentioned in the introduction, the operation of Weatherford College impacts the economy in three ways. The direct impact includes the purchases of resources (labor, goods, and services) as the College completes its traditional academic mission. The indirect impact occurs through industry-to-industry purchases the College makes with its local suppliers. Finally, the induced impact reflects the change in household demand as those employees of the College and Weatherford College’s supplier’s employees earn dollars for consumer spending. Therefore, the total impact to the economy is the summation of the direct, indirect and induced components. The indirect and the induced portions are commonly known as the multiplier. It shows how the initial (direct) expenditures get multiplied through the economy. Calculating the multipliers based on the supplier relationships and employee consumption patterns are much more accurate than simple multiplier tables.

FINDINGS

This section provides the major findings of the economic analysis of Weatherford College’s impact on the North Texas economy. It shows the dollar and employment impacts created from operations, capital spending, employee spending, student spending, and visitor spending components. Operations and capital improvement estimates are based on the audited financial statements. All non-cash transactions such as accruals, and depreciation were eliminated, as they have no tangible impact on the economic community. Student spending is based on enrollments and visitor spending is related to on-campus students and the number of Weatherford College employees. This section also includes estimates of fiscal (tax) impacts of the College. The economic footprint is the DFW Metro area for this section. This activity is defined as the primary economic impact. The ancillary impact measures the value of athletic program activity. It is intended to show the economic impact to Parker County only and therefore, was included in the primary impact section.

Capital Improvements and Operating Expenditures Student Spending and Visitor Spending

Weatherford College had a total (direct) spending of \$69,176,116 in 2021. This includes all primary activities (operations spending, capital improvements, and estimates of student and visitor spending.) This initial spending in turn generated an additional \$27,739,415 (indirect) through the College's purchase of goods and services from DFW suppliers. An additional \$42,429,258 (induced) of economic activity was created as the employees of the college and its suppliers spent the wages. The total economic impact is the summation of the direct, indirect and induced effects. In this case, the College's total 2021 economic impact was \$139,344,789.

Table 2 Economic Impact of Weatherford College Primary Operations Summary				
	Direct	Indirect	Induced	Total
Total Economic Impact	\$69,176,116	\$27,739,415	\$42,429,258	\$139,344,789
Employment	712	144	261	1,118
Labor Income	\$38,940,084	\$8,161,940	\$14,599,656	\$61,701,680
Value Added (GDP)	\$40,889,829	\$17,280,811	\$25,656,387	\$83,827,028

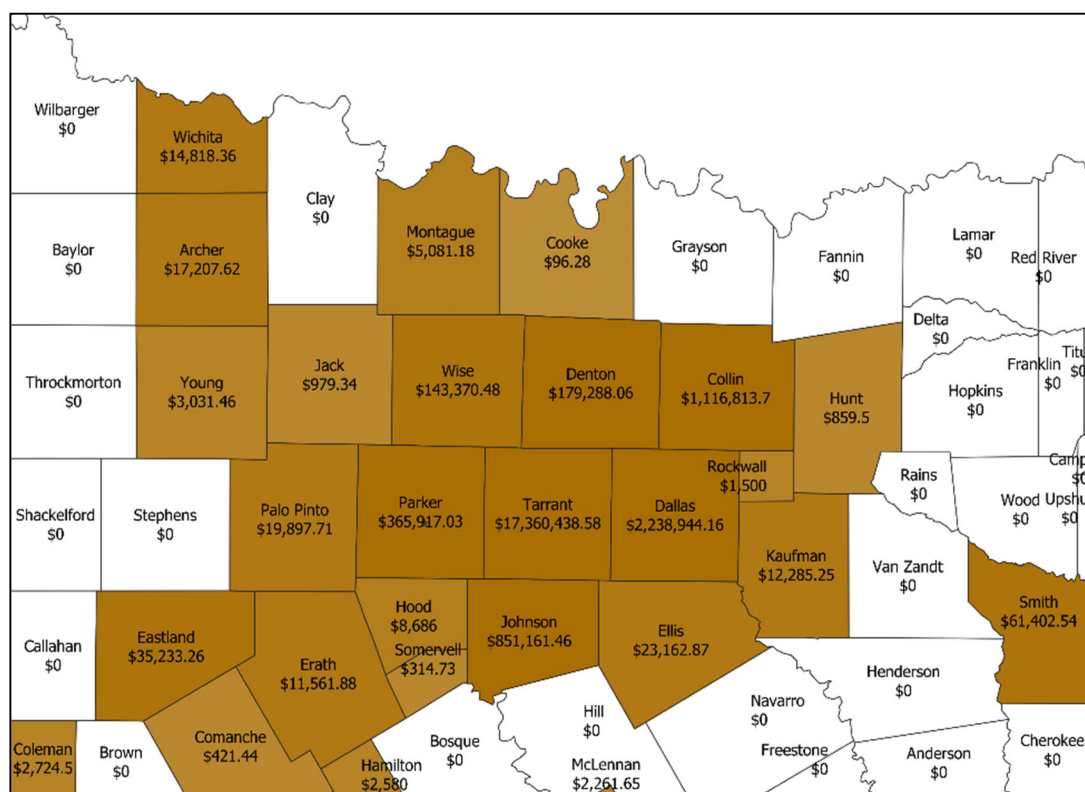

Weatherford College created 1,118 full-time jobs through their primary economic activity. This employment includes 712 direct jobs that were college employees and employees of related capital improvement projects. Weatherford College generated 144 jobs from the business-to-business (indirect) activity, and 261 jobs that resulted from employee spending (induced) activity.

Primary Weatherford College activity created a total of \$61,701,680 in labor income for the DFW region. Labor income is comprised of employee wages & salaries paid and proprietor income of Weatherford College suppliers that were not organized as corporations. In 2021, the \$57.4 million was created in employee wages and salaries and \$4.3 million was from proprietor income. The wages and salaries include Weatherford College employees and related DFW suppliers.

Weatherford College's total value-added impact on DFW was \$83,827,028 in 2021. This variable is included as it is a good proxy for Gross Domestic Product (GDP). The number is always lower than the total economic impact as it represents the value of final goods and services. Total economic includes the economic value of intermediate goods and services.

The Economics Research Group also plotted the accounts payable spending of Weatherford College. The map showing local spending is shown below. This map shows local accounts spending by zip code that was then aggregated to the county. This spending does not include wages and salaries or employee spending.

Map 1
Local Accounts Payable Spending

Student Spending Impact

Student spending was estimated for students who reside in on-campus facilities and are from a region outside of DFW. Weatherford College students that live off-campus are assumed to be DFW residents that would have spent their money in the local economy. They are not considered a net addition to economic activity in DFW. This method is standard practice in economic impact studies. Weatherford College reported they had 249 non-DFW resident students in on-campus facilities. It was assumed that most of their needs were provided by on-campus housing and dining facilities. This economic activity is captured in the College's financial statements. However, we know that students make purchases off-campus. For this study, it is estimated that each student spends and additional \$3,500 per academic year in the local DFW economy. The direct spending from on-campus students was estimated ($\$3,500 \times 249$) to be \$871,500. The total economic impact of student spending is included in the above totals.

Visitor Spending Impact

Estimating visitor spending in these studies is always a difficult task. One common method is to simply use some estimated percentage of the College's impact. This method is not always accurate and certainly does not capture any unique student or College activities. Another method is to estimate the number of visitors that attend each of the College events. To accurately complete these tasks extensive surveys would need to be conducted at each of the College's events. This is prohibitively expensive and is outside the scope of this project.

The best method for estimating visitor spending of a local College is to base it on the number of visitors per student and employee/faculty member. The number of students and faculty provides a good foundation and measuring personal visits from out of town friends and family is a good proxy for all visitor categories. The faculty number includes professional visitors who may attend conferences sponsored by faculty from Weatherford College.

Table 3		
Visitor Spending Categories		
Type of Expenditure	Expenditure Per Visitor	Percent
Transportation	\$10.00	8%
Lodging	\$35.00	28%
Entertainment	\$21.25	17%
Food/Beverage	\$30.00	24%
Shopping	\$28.75	23%
Total	\$125.00	100%

Using the typical impact study averages, it is estimated that undergraduate students have 5.95 overnight visitors annually and employee/faculty have 4.32. The economic impact is included in the primary impact listed above.

Fiscal Impact

Weatherford College economic activity generated a total of \$17,763,827 in tax revenues (Federal, State and Local) in 2021. \$12,408,804 was from Federal tax revenue with the bulk of that revenue (\$6.49 million) being created through payroll (FICA) taxes stemming from Weatherford College employees and supplier employees. Weatherford College and supplier employees also paid \$4.6 million dollars in Federal income taxes. The income tax number includes taxes from Weatherford College suppliers that were organized as and proprietor businesses. Corporate income taxes related to the Weatherford College supply chain activity generated \$756,144 in Federal corporate income tax payments.

Weatherford College economic activity created \$5,355,023 in state and local tax revenue. This revenue includes sales taxes, property taxes, severance taxes and fee income such as vehicle license fees. The property tax portion of the state & local tax number may be understated. Individual property ownership values of Weatherford College employees were not included or estimated. The property tax

estimates included in this report are based on supplier and corporate property tax proportions related to Weatherford College economic activity. Also excluded is the portion of property taxes allocated to Weatherford College's ad valorem income revenue.

Table 4		
Tax Revenue Generated by Weatherford College		
	Federal Taxes	State & Local Taxes
Employee & Proprietor Compensation	\$6,492,856	\$83,184
Tax on Production and Imports	\$579,199	\$4,833,266
Households	\$4,580,605	\$420,708
Corporations	\$756,144	\$17,865
Totals:	\$12,408,804	\$5,355,023

ANCILLARY ECONOMIC ACTIVITY

The ancillary economic activity is related to Weatherford College athletic events. It was not included in the primary activity category as the data is more subjective and cannot be traced to easily verifiable sources such as audited financial statements or official enrollment numbers. Also, the ancillary impacts are intended to estimate the economic contribution to Parker County only and not DFW like the primary impact section. All the data estimates were provided by Weatherford College staff. The results are conservative estimates and fairly represent the economic impact.

Basketball

The estimated attendance supporting visitor teams for basketball games (men and woman) was approximately 720. ERG assumed that 5% of the visitors were from outside the DFW metroplex and stayed in Parker county for one night (36 overnight stays). It was estimated that basketball had 18 team member days in its activity. This represents a total of 54 overnight stays.

Softball/Baseball

The estimated night stays for the baseball/softball teams is as follows: 193 team members with 1.5 per room is the equivalent of 289 days. 750 estimated visitors with .05 staying in Parker County is 37 room days. The Coyote Chillout contributes another 57 room days. The total room day is 383.

Golf

It was assumed that golf activity created 30 overnight stays in Parker County.

Rodeo

Rodeo had one event in 2021 and included about 150 contestants. It was estimated that 50 people stayed one night in Parker County. (Weatherford College also estimated the rodeo team spend approximately \$25,000 per month in local feed stores, vets and farrier services. It is assumed this activity is captured in the financial statements.)

The total economic contribution of 900 visitor days is \$213,290. Employment and other statistics were not estimated due to the Parker County only footprint of the ancillary activity. The economic impact was calculated by multiplying the visitor days times the budget category listed in table xx. The spending amount was then multiplied by the Social Accounting Matrix (SAM) multiplier that is used by the IMPLAN model. This gives estimated total economic impact that is generated by the visitor spending.

Table 5 Ancillary Impacts							
Spending per Day per Person							
IMPLAN Sector	Sector	Amount	Percent	SAM Multiplier	Visitors	Spending	Economic Impact
402	Transportation	\$10	0.08	1.979367	900	\$9,000	\$17,814
499	Lodging	\$35	0.28	1.785228	900	\$31,500	\$56,235
496	Entertainment	\$21	0.17	1.863245	900	\$19,125	\$35,635
503	Food/Beverage	\$30	0.24	1.986690	900	\$27,000	\$53,641
405	Shopping	\$29	0.23	1.931031	900	\$25,875	\$49,965
	Total	\$125	1			\$112,500	\$213,290

APPENDIX A
Industry Impact Detail of Primary Operations

Economic Impact of Primary Operations			
Sector	Description	Economic Impact	Employment
0	Total	\$139,344,789	1,118
1	Oilseed farming	\$27	0
2	Grain farming	\$3,369	0
3	Vegetable and melon farming	\$971	0
4	Fruit farming	\$470	0
5	Tree nut farming	\$188	0
6	Greenhouse, nursery, and floriculture production	\$6,012	0
7	Tobacco farming	\$0	0
8	Cotton farming	\$255	0
9	Sugarcane and sugar beet farming	\$15	0
10	All other crop farming	\$5,792	0
11	Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	\$22,885	1
12	Dairy cattle and milk production	\$7,192	0
13	Poultry and egg production	\$4,693	0
14	Animal production, except cattle and poultry and eggs	\$5,323	0
15	Forestry, forest products, and timber tract production	\$164	0
16	Commercial logging	\$190	0
17	Commercial fishing	\$0	0
18	Commercial hunting and trapping	\$332	0
19	Support activities for agriculture and forestry	\$3,698	0
20	Extraction of natural gas and crude petroleum	\$338,993	1
21	Extraction of natural gas liquids	\$62,626	0
22	Coal mining	\$5,150	0
23	Iron ore mining	\$0	0
24	Gold ore mining	\$513	0
25	Silver ore mining	\$0	0
26	Lead and zinc ore mining	\$0	0
27	Copper ore mining	\$0	0
28	Uranium-radium-vanadium ore mining	\$40	0
29	Other metal ore mining	\$0	0
30	Stone mining and quarrying	\$4,947	0
31	Sand and gravel mining	\$7,770	0
32	Other clay, ceramic, refractory minerals mining	\$197	0
33	Potash, soda, and borate mineral mining	\$0	0
34	Phosphate rock mining	\$0	0
35	Other chemical and fertilizer mineral mining	\$0	0
36	Other nonmetallic minerals	\$81	0

**Weatherford College Board of Trustees
Report**

DATE: November 10, 2022

AGENDA ITEM# 6.d.

SUBJECT: TASB Salary Study

INFORMATION AND DISCUSSION: Mr. Williams will give an update on the recent salary study with TASB, Texas Association of School Boards.

ATTACHMENTS:

SUBMITTED BY: Paul Williams, Executive Director of Human Resources

Cost Estimates for Classifications

Initial Cost Estimate in Draft Report Adjusted For 6% Salary Increase

	Total Staff	Count of Increases	Cost Increase
Faculty	129		
^{1c} 6.1% general pay increase		128	\$135,041
Adjustments to years 1-15 (Master's)		36	\$195,470
		Subtotal	\$330,511

Initial Cost Estimate in Draft Report Adjusted for 6% Salary Increase

	Total Staff	Count of Increases	Cost Increase
Administrative/Professional	72		
^{1c} 6.0% of pay range midpoint increase		72	\$52,007
Adjustments to 1.0% above pay range minimum		14	\$23,186
Strategic adjustment*		42	\$32,382
		Subtotal	\$107,575

Initial Cost Estimate in Draft Report Adjusted for 6% Salary Increase

	Total Staff	Count of Increases	Cost Increase
Classified	69		
^{1c} 6.0% of pay range midpoint increase		68	\$49,312
Adjustments to 1.0% above pay range minimum		21	\$83,551
Strategic adjustment**		37	\$44,512
		Subtotal	\$177,375

Total Cost Estimate

\$615,461

Footnotes:

*Strategic adjustments of an additional 1.0 percent of midpoint were applied to admin/professional employees whose pay remained below 95 percent of new midpoint even after receiving the general pay increase.

Placement scale adjustments were used to align employee pay by years of experience for classified staff to address internal equity and pay compression resulting from increased starting rates.

 - Labadie-Lagrave sends Hammond \$1,000 in anticipation of the Comte's arrival in 1889
- Comte Paul de Bresson
 - Raised and imported thoroughbred horses; showed Ribaude and Scotland Glory II at the 1889 Dallas Fair
- Henri DeBeaufort and Emile "Louis" V. DeBeaufford
 - Grandfather and father of Tom DeBeauford
- C. W. and Gordie Carter
 - Bequeathed land to Weatherford College; I. B. Hand, trustee

Historical Background

- Significant French presence in Parker County largely due to Franco-Texan Land Company
- Franco-Texan Land Company home office restored by Bob and Carolyn Glenn
- De Bresson Stable is one of two remaining French-style stables in Parker County
- Stable undoubtedly built in 1889 for de Bresson's French thoroughbred horses

Weatherford Constitution
6 November 1889

Texas Historical Markers

- Two types
 - Subject marker
 - Registered Texas Historical Landmark (RTHL)
- Marker submittal period opens 1 March
- About a 2-to-3 year process before obtaining a marker
- RTHL requires building be in sound condition
- Requires owner approval of RTHL designation
- Texas Historical Commission (THC) has some oversight if a RTHL building is moved or threatened with destruction

Consideration

- The PCHC requests Board consideration for RTHL designation
- Permission to protect, repair, and restore the stable

Parker County Historical Commission
